LANGUAGE****BRIAN O VISION
SOLUTIONS Pvt. Ltd.****II&III**

Dart is a client-optimized programming language for apps on multiple platforms. It is developed by Google and is used to build mobile, desktop, server, and web applications. Dart is an object-oriented, class-based, garbage-collected language with C-style syntax. Dart can compile to either native code or JavaScript. It supports interfaces, mixins, abstract classes, reified generics, and type inference. Dart was unveiled at the GOTO conference in Aarhus, Denmark, October 10–12, 2011. The project was founded by Lars Bak and Kasper Lund. Dart 1.0 was released on November 14th, 2013.

**17-10-2020****CAREER GUIDANCE****SESHU KANDREGULA****IV**

SESHU KANDREGULA delivered a lecture on career guidance. There he beautifully presented various career options in form of colourful graphs, pie charts as well as flowcharts to make it easier for the students to interpret and analyse all the options and then choose the most suitable career decision for them. Other dignitaries took up the dais and gave ideas and insights about the practical life that one who will face in the corporate world. Some emphasised the importance of internships and apprenticeships among the students. An open questioning session was held in the end to resolve all the queries in the minds of students.

28-12-2020 to 30-12-2020	THREE DAY WORKSHOP ON “WEB DEVELOPMENT WITH PYTHON(Django)”	MR.L.RAVI CHANDRA BACKEND DEVELOPER CODEGNAN IT SOLUTIONS(OPC) PVT LTD	III
-----------------------------	--	---	------------

Django is a high-level Python Web framework that encourages rapid development and clean, pragmatic design which was built by experienced developers; it takes care of much of the hassle of Web development, so people can focus on writing your app without the need to reinvent the wheel. It's free and open source. Django follows the "Batteries included" philosophy and provides almost everything; developers might want to do "out of the box". Django can be (and has been) used to build almost any type of website from content management systems, wikis to social networks and new sites. It can work with any client-side framework, and can deliver content in almost any format (including HTML, RSS feeds, JSON, XML, etc). Django helps developers to avoid many common security mistakes by providing a framework that has been engineered to do the right things to protect the website automatically.

28-1-2021 to 29-1-2021.	THREE DAY WORKSHOP ON “SOURCE CODE MANAGEMENT USING GIT & GITHUB”	Mr. S. V. Krishna, APSSDC	IV
----------------------------	--	--------------------------------------	-----------

Git is a free and open source distributed version control system designed to handle everything from small to very large projects with speed and efficiency. Git is easy to learn and has a tiny footprint with lightning fast performance. It outclasses SCM (Software Code Management) tools like Subversion, CVS, Perforce, and ClearCase with features like cheap local branching, convenient staging areas, and multiple workflows. GitHub is an American company that provides hosting for software development version control using Git. It is a subsidiary of Microsoft, which acquired the company in 2018. It offers all of the distributed version control and source code management (SCM) functionality of Git as well as adding its own features. It provides access control and several collaboration features such as bug tracking, feature requests, task management, and wikis for every project.

------------	--	--	-----------

Mobile application development is the process of creating software applications that run on a mobile device, and a typical mobile application utilizes a network connection to work with remote computing resources. Hence, the mobile development process involves creating installable software bundles (code, binaries, assets, etc.), implementing backend services such as data access with an API, and testing the application on target devices. There are two dominant platforms in the modern smartphone market. One is the iOS platform from Apple Inc. The iOS platform is the operating system that powers Apple's popular line of iPhone smartphones. The second is Android from Google. The Android operating system is used not only by Google devices but also by many other OEMs to build their own smartphones and other smart devices. Mobile apps have become a necessity for every business, be it a startup or an established business.

19-06-2021	WEBINAR ON CYBER SECURITY AND MACHINE LEARNING	Mr.D.SAI SATISH	II
------------	---	------------------------	-----------

Cyber security is the application of technologies, processes and controls to protect systems, networks, programs, devices and data from cyber attacks. It aims to reduce the risk of cyber attacks and protect against the unauthorised exploitation of systems, networks and technologies. Cyber security focuses on protecting computer systems from unauthorised access or being otherwise damaged or made inaccessible.

Machine learning is a branch of artificial intelligence (AI) and computer science which focuses on the use of data and algorithms to imitate the way that humans learn, gradually improving its accuracy. Machine learning is an important component of the growing field of data science. Through the use of statistical methods, algorithms are trained to make classifications or predictions, uncovering key insights within data mining projects. These insights subsequently drive decision making within applications and businesses, ideally impacting key growth metrics. As big data continues to expand and grow, the market demand for data scientists will increase, requiring them to assist in the identification of the most relevant business questions and subsequently the data to answer them.

**WEBINAR ON ROAD
SAFETY INFORMATION****Amit Narayana Rao,
Honda Motorcycle &
Scooter pvt ltd****III**

Road traffic safety refers to the methods and measures which are used to prevent road accidents and to safeguard the people from serious injuries and from death. Typical road users include pedestrians, cyclists, motorists, vehicle passengers, horse riders, and passengers of on-road public transport (mainly buses and trams). In conclusion, road safety rules are a highly vital part of civilised living. It is important that every citizen know and abides by the rules that the government sets. Even children and teenagers should be educated and made aware of the road regulations in the country.

**23-06-2021 to 26-06-2021****WEBINAR ON DIGITAL MARKETING****Mrs. S.SivaLalitha,
Hyper Techno Solutions.****III****Digital marketing**

Digital marketing is the marketing of products or services using digital technologies, mainly on the Internet, but also including mobile phones, display advertising, and any other digital medium

meet.google.com is sharing your screen. [Stop sharing](#) [Hide](#)

Any marketing that uses electronic devices and can be used by marketing specialists to convey promotional messaging and measure its impact through your customer journey. In practice, digital marketing typically refers to marketing campaigns that appear on a computer, phone, tablet, or other device. It can take many forms, including online video, display ads, search engine marketing, paid social ads and social media posts. Digital marketing is often compared to “traditional marketing” such as magazine ads, billboards, and direct mail. Oddly, television is usually lumped in with traditional marketing.

Report On APPSDC Workshop

WORKSHOP ON REVIT ARCHITECTURE

APPSDC conducted a workshop in CE Department named as “**REVIT ARCHITECTURE**” by trainers Mr. Dalinaidu. This was scheduled on 06th April 2021 to 10th April 2021. The agenda of program was to prepare blueprints and plans for Elements & Families, Modeling. REVIT ARCHITECTURE offers a lot benefits. By learning this software Student will save time and money, it'll also decrease drafting error, produce better quality renderings and be able to offer a complete solution involved in the project. It truly has made the work a lot easier. The students able to make work simpler and easier with least chances of error. They showed a good response during the session.

Dear sir/madam
Please arrange for Revit Architecture work shop for five days tentatively from 6-4-2021 to 10-04-2021 for II & III year civil engineering students.
After the completion of the workshop we are also planning for certification based on the student response.
IN the above context I request you to arrange the mentors for the same.

Thanking you,
Nagaraju Chanumolu,

A Report on

WEBINAR ON "ROAD SAFETY" By

'Honda Motors'

Organized by

Civil Engineering Department

The aim of the program is to create awareness on road safety to the society. The faculty & Students of II, III & IV B.Tech from civil engineering department participated in this event. The webinar on "Road Safety by Honda Motors" to be more fruitful, the participant faculties & Students will be exposed to the practical problems.

Participant's profile: Faculty of ALIET & Students of II, III & IV B.Tech have participated in the Program.

Description about the program:

Webinar on "Road Safety" organized by "Honda Motors" in Association With **Department of Civil Engineering, Andhra Loyola Institute of Engineering and Technology** on 25-06-2021. Road accidents claim around 10,000 - 12,000 lives in the country every year, including 3500 people who are aged below eighteen, speakers said in a roundtable on creating awareness about road safety arranged by safe road movement in the city yesterday.

While speaking at the roundtable, speakers also said that coordinated efforts of law enforcing agencies, Red Crescent, different nongovernment and voluntary organisations are needed to reduce the rate of road accidents and ensure better health services to the injured.

They also stressed on raising consciousness for compliance with traffic rules, cautious movement of the pedestrians on the streets and carrying the accident victims to the hospitals at the earliest possible time. They said that all conscious people should come forward to strengthen the current Safe Road Movement.

Amit kadam, Genereal Manger, Honda Motors, Mumbai had spoken about on "Road safety" for II, III & IV B.Tech students.

Then moved on to the process of development, commercialization and management of Intellectual property (IP), types of IP such as Patents, Trade Marks, Copyrights, Geographical Indicators and Trade Secrets, potential issues, the registration process for each IP right, the role of IP in different sectors and evergreening strategies of IP in the forenoon.

Mr Siva Sankar Kasturi, IPR Attorney, CEO and Founder, AMCONS IPR Attorneys, Vijayawada was the resource person for the legal session in the afternoon. His session completely focussed on various IPR cases filed by the plaintiffs for the infringement of their IP rights, the role of tribunals in protecting the rights of IP, government interventions in case of emergencies, various sections and clauses of the constitution and Intellectual Property act in India.

Students showed keen interest to know various aspects of IPR and legal remedies which they wanted to implement in their future endeavours of entrepreneurship and professional career. They expressed their deepest gratitude to both the resource persons for sharing their rich experience in the field of Intellectual Property Rights.

Rev. Fr. Dr A. Francis Xavier, Director, ALIET emphasised the need for understanding IPR and wished the students should contribute for Intellectual properties. Dr O. Mahesh, Principal has told that management students must be ready to face the challenges of Industry 4.0 and create opportunities with their intellect. Rev. Fr. J. Chiranjivi, Assistant Director Rev. Fr. M. Anand, Assistant Director wished the students should come with innovations that help the society and needy. The programme was headed by Dr T. Subba Rayudu, Head of the Department, Convenor of Workshop. Dr N. Janaradhana Rao, Co-ordinator of the workshop, Mrs V. Naga Lakshmi, Mr P. Rajesh, Mrs Lavanya P B and Mr U. Gangadhar Rao were present in the session.

About the MBA Department at ALIET

The Department of MBA at ALIET was established in 2009. Since its inception the department has made giant strides towards quality in management education. The MBA program at ALIET aims at leadership development, experiential learning and academic excellence. It is highly customer centric, customized and comprehensive and attracts the best of students.

Vision:

To produce high caliber Management professionals with a passion for academic excellence, uncompromising human values and sensitive social conscience.

Mission

M1- to offer enriching learning experiences to aspiring managers.

M2- to enable them to realize their full potential.

M3- to ensure that they serve as agents of continuous improvement and change.

M4- To encourage entrepreneurship and service.

About the Work Shop

This workshop will explore the world of IP both at home and abroad by giving the basic understanding of how to develop, commercialize and manage IP. This session focuses on creating an opportunity to students, academicians, MSMEs, Entrepreneurs and all other stakeholders to put forward their research and share their knowledge on wide range of topics relating to Intellectual Property Rights and related subjects.

The purpose of the workshop is to provoke discussion and debate on a range of topics and including subjects like Patents, Trademarks, Copy Rights, Trade Secrets etc., This Seminar program offers high-level content relevant not only to students pursuing any academic degree but also to young innovators from different fields to engage in a dialogue on protection and commercialization of Intellectual Property.

Through this initiative, we want our students and faculty to develop a broader perspective of their responsibility to society.

After this session, Participants will be able to explore:

- ★ Describe the different types of IP and identify them within their business.
- ★ Understand the difference between registered and unregistered rights
- ★ See the importance and value of IP to their business
- ★ Explain the different routes and mechanisms to protect IP abroad
- ★ Understand the dynamics of different technology fields underpinning innovation related to the Fourth Industrial Revolution viz., Internet of Things, AI, Virtual Reality, Big Data Analytics, Cloud Computing, 3D Printing, etc.,
- ★ Identify potential IP issues
- ★ Discuss IP and commercialization issues and to learn from other's experiences.

Subject: Acceptance to be the Speaker at the Seminar on Intellectual Property Rights – reg.

Dear Sir,

I am extremely honored to agree to your invitation to speak at the Seminar on Intellectual Property Rights to be held at your College on 1st April 2021 from 09.00 a.m. I am so happy that I was chosen for this occasion.

I am excited to be a part of the seminar “Intellectual Property Rights in the Fourth Industrial Revolution Era – Opportunities and Challenges,” and this is my official acceptance letter for the same. I will be speaking with the help of a PowerPoint presentation. The session will go on for Two Hours. After that, there will be an interactive session with the participants.

I wish to take once again up this chance to thank you. I very much look ahead to being present at the seminar and making my presentation.

I welcome your effort in calling me and I am honored to be a part of the seminar.

Thanks & Regards,

Yours Sincerely,

Siva Sankar Kasturi,

IPR Attorney.

Resource person details:

Good Morning All! I would like to welcome all my dear students, respected HOD, and faculties to the today's webinar on "Amazon Web Services".

Its my great privilege to introduce today's resource person Mr Abhilash, Associate Software Engineer in TCS. He completed his B.Tech in ALIET in 2019 and joined in TCS in 2019 itself.

We are very much happy to see u as a resource person. Thank u very much for giving a session.

With this I am handing over the session to Abhilash. Over to u sir.

Vote of thanks

On behalf of ANDHRA LOYOLA INSTITUTE OF ENGINEERING AND TECHNOLOGY, IT Department and the entire management, I am very hearty gratitude to the resource person Mr Abhilash for sharing their graceful words with us in today's meeting.

Sir,

Your guidelines will be very much helpful to our students to do projects on this AWS.

Thank u once again sir.

And also I thank to all the people who helped me either directly or indirectly, to make the meeting successful.

Last but not the least I would like to thank to all the student participants for attending the meeting.

Thank u one and all.

Date(s): 26-06-2021 to 30-06-2021

Venue: Teams

Participants: IT 2,3,4 years

Workshop On “APPTITUDE SKILL TEST “ has been conducted from 26-06-2021 to 30-06-2021, at Andhra Loyola Institute of Engineering and Technology, Vijayawada, Krishna District, Andhra Pradesh.

The Resource Person of this Workshop was Brain o vision Team, Vijayawada. The primary objective of the Workshop is to cover topics of different skill languages and aptitudes, reasoning. The students experienced online session on Aptitude skills. A Total of 55 students were participated in this workshop and gained the Knowledge on aptitude skills.

Glimpses of the Programme:

The screenshot shows a Teams meeting interface. On the left, a presentation slide titled 'Bamboo Paper' displays handwritten text in red ink. The text reads: 'Third proportion: if a, b, c are in proportion, then $\frac{a}{b} = \frac{c}{b}$ '. Below this, it says 'Fourth proportion:'. A red arrow points from the equation to the formula $b = \sqrt{ac}$. On the right, a 'Participants (165)' window is open, showing a list of participants with their names and profile pictures. The list includes names like Kanya Kumar, Channell B. Tech Trainers, and various students with IDs starting with 17HP1A1201.

Question 1:

What is the fourth proportion to 0.008, 1.6 and $\frac{1}{5}$ → c d=? $\frac{a}{b} = \frac{c}{d}$

a. 32
b. 40
c. 48
d. 64

$\frac{0.008}{1.6} = \frac{\frac{1}{5}}{d}$

$d = \frac{1}{5} \times 1.6 \times \frac{1}{0.008} \Rightarrow$

Question 2:

Rs. 20000 invested at compound interest becomes 34560 in 3 years. If the same amount is invested in compound interest for 6 months where the interest is compounded quarterly, what will be the interest obtained?

a. 2000
b. 2100
c. 2050
d. 2150

$\left(\frac{100+R}{100}\right)^3 \times 20000 = 34560$

$\left(\frac{100+R}{100}\right)^3 = \frac{34560}{20000} = 1.728$

Question 2:

Rs. 20000 invested at compound interest becomes 34560 in 3 years. If the same amount is invested in compound interest for 6 months where the interest is compounded quarterly, what will be the interest obtained?

- a. 2000
- b. 2100
- c. 2050
- d. 2150

$$\left(\frac{100+R}{100}\right)^3 \times 20000 = 34560$$

$$\left(\frac{100+R}{100}\right)^3 = \frac{34560}{20000} = \frac{3456}{2000} = \frac{1728}{1000}$$

$$\frac{100+R}{100} = \sqrt[3]{\frac{1728}{1000}}$$

$$\frac{100+R}{100} = \frac{12}{10} = \frac{120}{100}$$

Resource person details:

Good Morning All! I would like to welcome all my dear students, respected HOD, and faculties to the today's webinar on "Spring Framework".

Its my great privilege to introduce today's resource person Mr M Revanth, a full stack developer in TCS. **He completed his B.Tech in ALIET in 2019.**

We are very much happy to see u as a resource person. Thank u very much for giving a session.

With this I am handing over the session to Revanth. Over to u sir.

Vote of thanks

On behalf of ANDHRA LOYOLA INSTITUTE OF ENGINEERING AND TECHNOLOGY, IT Department and the entire management , I am very hearty gratitude to the resource person Mr Abhilash for sharing their graceful words with us in today's meeting.

Sir,

Your guidelines will be very much helpful to our students.

Thank u once again sir.

And also I thank to all the people who helped me either directly or indirectly, to make the meeting successful.

Last but not the least I would like to thank to all the student participants for attending the meeting.

Thank u one and all.

AI-Driven Companies Outpacing Traditional Firms

- Understanding the revolutionary impact that Artificial Intelligence (AI) has on operations, strategy and competition is a must for every business leader.
- It becomes even more important, especially if you're planning to launch a digital start-up, or looking to revamp your traditional business.
- The age of AI is being guided by the emergence of new kinds of firms, where the real value comes from algorithms, rather than traditional business processes.
- Today, AI sets the prices on Amazon, recommends songs on Spotify, matches buyers and sellers on indigo's marketplace, and qualifies borrowers for an Ant Financial loan.

Leading organizations expect to double the number of Artificial Intelligence (AI) projects in place within the next year, and over 40% of them plan to actually deploy AI solutions by the end of 2020 - Gartner

14-9-2020 TO 26-9-2020	TWO WEEK WORKSHOP ON PROBLEM SOLVING USING PYTHON	Mr.G. Sri Kanth, APSSDC	IV
			
<p>Python is a popular choice among bigger businesses and developers. Starting with Python is relatively simple since it uses English phrases rather than technical jargon. The open-source nature of this software allows anyone to use or modify it without any restrictions. It supports object-oriented programming which helps in creating reusable components. Python has an extensive Standard Library. A huge number of object types, functions and methods are available without importing any external modules. These include math functions, list methods, and calls to a computer's system. Python is growing in popularity. Python is particularly growing in the data sciences and in use with GIS systems, physical modelling, and machine learning and computer vision. These are growing team problem-solving areas for engineers.</p>

Title: 2 DAY Workshop on “SOLAR PV DESIGN”

Date(s): 21st to 22nd Sep 2020

Resource person: HYDERABAD INSTITUTE OF ELECTRICAL ENGINEERS

Participant's:

II, III Year EEE55 students

Description about the Program:

Solar Power a clean renewable resource with zero emission has got tremendous potential of energy which can be harnessed using a variety of devices. With recent developments, solar energy systems are easily available for industrial and domestic use with the added advantage of minimum maintenance. Solar energy is made financially viable with government tax incentives and rebates.

India has an average annual temperature that ranges from 25°C – 27.5 °C. This means that India has huge solar potential. One of the biggest challenges for the India's booming renewable energy industry is getting skilled manpower. The primary goal of IISE is to fill this gap through solar short term, long term courses & solar online training.

ABOUT THE COLLEGE

Andhra Loyola Institute of Engineering and Technology (ALLET) is a sister institution of the reputed Andhra Loyola College, Vijayawada. These two institutions are administered and run by Loyola College Society, Guntur-Vijayawada.

ALLET was approved by AICTE- New Delhi, on 04-06-2008 and is also an ISO 9001:2015 certified institution and accredited by NAAC. The institution is recognized by the government of Andhra Pradesh and affiliated to JNTUK. The institute is offering 6 UG programs with an intake of 540 (CSE-120, ECE-120, EEE-60, MECH-120, CIVIL-60 & IT-60) & MBA (60). Our institute is partially running with the roof top solar power.

ABOUT EEE DEPARTMENT:

The Department of EEE has been offering a full time four year B.Tech Degree course since the inception of the institution. The department is provided with all required infrastructural facilities like well equipped laboratories, well qualified & dedicated faculty and technically sound supporting staff. It is continuously striving to impart quality education and competitive spirit among students for academic excellence. Many of our students' technical papers have been published in various national & international technical symposiums. The Department offers placements in various MNCs and Core companies.

VISION:

To mould the students as efficient Electrical & Electronics Engineers by providing quality education with skills and character to serve the society.

MISSION:

M1 - To provide high quality teaching and service that renders the students a supportive environment.

M2 - To impart holistic education and prepare the students to solve the problems by apply engineering principles to electrical systems.

ABOUT WORKSHOP

MATLAB is a high-level language and interactive environment for numerical computation, visualization and programming. Using MATLAB one can analyse data, develop algorithms, and create models and applications. The language, tools and built-in math functions makes it possible to explore multiple approaches and reach a solution faster than with spread sheets or traditional programming languages, such as C, C++ or JAVA. MATLAB can be used for a range of applications, including sim power systems, signal processing and communication, image and video processing, control system, test and measurement. More than million engineers and scientists in industry and academic use MATLAB.

TOPICS TO BE COVERED:

- Basics of MATLAB
- Simulation of Power Electronics Converters
- Introduction to Solar Energy Systems
- Simulation and Design of Electric Vehicles
- Simulation of Power System models
- Simulation of Electrical machines models
- Applications of Power systems
- Applications of Power Electronics

LEARNING OUTCOMES:

1. Implementation of power systems and power electronics using MATLAB.
2. Hands on Experience.

ELIGIBILITY

This program is open to all the EEE department UG & PG students, Research Scholars

A One-day Webinar on “Person Identifier using Python and OpenCV”

Title: A One-day Webinar on “Person Identifier using Python and OpenCV”

Resource Person: M.Srinivasan from **Pantech e-Learning**, acted as Resource Person.

Date(s): 14-07-20.

Venue: Online

Participants: IV ECE students

A One-day Webinar was organized by Department of ECE for IV B.Tech students of ALIET and other Institutions on the topic “**Person Identifier using Python and OpenCV**” on 14-07-20. Mr.MD.Baig, Dr.T.LakshmiNarayana and Mr.S.Mallikharjuna Rao of ALIET, acted as Coordinators. M.Srinivasan from **Pantech e-Learning**, acted as Resource Person. The resource person explained how Python language can be used in coordination with Open-CV Software for Identification of a Person in Computer recognition task. He has explained various algorithms related to Computer-vision

Telecom switching Systems

- The potential of Telecommunications is realised only when any entity in one part of the world can communicate with any other entity in another part of the world
- Modern telecommunications networks made this idea of **universal connectivity** a reality
- Connectivity in telecom networks is achieved by the use of **switching systems** in association with **Transmission systems**.
- The subject, **ESS (Electronic Switching Systems)** deals with telecom switching systems.

Passcode: 900720

Participants: II & IV Year Mechanical engineering students.

Description about the Webinar:

An interactive webinar program on the topic "**Webinar on Opportunities And How To Start A Startup In HVAC/MEP/Mechanical Industry**" was organized by Department of Mechanical Engineering Session on 25/6/2020, and the lecturer was delivered by Mr. Asif, Entrepreneur of Prinston Smart Engineers and by Ms. Farheen, Prinston Smart Engineers. The target audience are II & IV Year Mechanical engineering students

Heating, ventilation and air conditioning (HVAC) was the technology of indoor environmental comfort. Its goal is to provide thermal comfort and acceptable indoor air quality. **MEP** is important for planning, decision-making, accurate documentation, performance- and cost-estimation, construction, and operating/maintaining the resulting facilities.

This lecture was very helpful to students who understood the importance of **Startup In HVAC/MEP/Mechanical Industries**, also how it provides employment to people and strengthens the economy.

**Seminar on “Advanced Materials”****Title:** Seminar on “Advanced Materials”**Resource Person:** Dr. Srinu, Assistant Professor, NIT Calicut.**Date(s):** 25/9/2020**Venue:** This Is an Online Session Conducted by Using “Microsoft Teams”.**Participants:** IV-year Mechanical students.

Description about the Seminar: A Seminar on “Advanced Materials” was organized on 25/9/2020 by Dr. Srinu, Assistant Professor, NIT Calicut, to **Final year** Mechanical students. This session was very useful to students who are to be engaged in higher education, research and development in materials Science and Engineering, including materials discovery and/or processing and also an ability to develop and conduct appropriate experimentation.

Materials are cornerstones in industry, platforms for new technology such as telecommunication or bioimplants. In addition, material science is a key technology for environmentally sustainable development and therefore, there is a growing importance of materials engineering in industry. With a focus on the latest developments and trends, as well as future outlook on the field of advanced materials the department has planned to arrange a guest lecture on “Advanced Materials for Engineering Applications”. The objective is to focus on research and development and technological advancements beneficial in the field of Basic Sciences, Chemical, Nanotechnology, Biotechnology, metallurgy and Mechanical Engineering. This lecture will enhance the knowledge in the field of Advanced Materials for Engineering Applications, beneficial for pursuing research required for acquiring higher education and would also be resourceful in teaching learning process.

- All metals have a tendency to corrode, with some corroding more easily than others.
- Metals are extracted from ores (oxides, sulfides and others).
- Production of these metals from their ores requires energy (heating and melting).
- Certain environments offer opportunities for these metals to recombine and revert to their lower energy states.
- Thus, corrosion can be described as "extractive metal".

Title: Seminar on “Role of corrosion damage in high strength engineering materials”

Resource Person: Dr. Rafi Mohammad, Assistant Professor, NIT Andhra Pradesh.

Date: 9/10/2020

Venue: This is an Online Session Conducted by Using “Microsoft Teams”.

Participants: II Mechanical Engineering students.

Description about the Seminar:

A seminar on “Role of corrosion damage in high strength engineering materials” was organized on 9/10/2020 by the Department of Mechanical Engineering and lecturer was delivered by Dr. Rafi Mohammad, Assistant Professor, NIT Andhra Pradesh, to II-year Mechanical engineering students.

Corrosion is defined as the chemical or electrochemical reaction between a material, usually a metal or alloy, and its environment that produces a deterioration of the material and its properties. This lecture was helpful to students to understand how the high strength materials behave when it is subjected to corrosion, and various forms of corrosion and controlling methods of corrosion and also economical impact of corrosion in industrial as well as other normal applications.

The target audience are III Year Mechanical engineering students

Heating, ventilation, and air conditioning (HVAC) is the technology of indoor and vehicular environmental comfort. Its goal is to provide thermal comfort and acceptable indoor air quality. HVAC system design is a sub-discipline of mechanical engineering, based on the principles of thermodynamics, fluid mechanics and heat transfer.

This lecture was very helpful to students who understood the importance of HVAC in residential structures such as family homes, apartment buildings, hotels, medium to large industrial and office buildings such as skyscrapers and hospitals etc...

Description about the Orientation Program:

An Interactive orientation program on the topic **Opportunities in Mechanical Engineers in Mechanical, electrical and plumbing (MEP) Industry** was organized on 23/6/2020 by Department of Mechanical Engineering Session was taken by Mr. Asif, Entrepreneur of Prinston Smart Engineers. The target audience are IstYear Mechanical engineering students.

Mechanical, electrical and plumbing (MEP) refers to these aspects of building design and construction. In commercial buildings, these elements are often designed by a specialized engineering firm. MEP's design is important for planning, decision-making, accurate documentation, performance and cost-estimation, construction, and operating/maintaining the resulting facilities

This lecture was very helpful to students who understood the importance of **MEP, specifically** the in-depth design and selection of MEP systems, as opposed to a tradesperson who simply installs equipment. For example, a plumber may select and install a commercial hot water system based on common practice and regulatory codes. A team of MEP engineers will research the best design according to the principles of engineering, and supply installers with the specifications they develop. As a result, engineers working in the MEP field must understand a broad range of disciplines, including dynamics & mechanics of fluids, thermodynamics, heat transfer, chemistry, electricity, and computers. etc..

Title: Seminar on “Entrepreneurship Awareness Camp by Entrepreneur Development cell”

Resource Person: Mr. Thotapalli Gowtham, Founder, NENTR Pvt Ltd, Vijayawada.

Date: 4/2/2021

Venue: South Seminar Hall, Old Block, Andhra Loyola Institute of Engineering and Technology, Vijayawada.

Participants: IV Year Mechanical Students.

Description about the seminar:

A guest lecture on “Entrepreneurship Awareness Camp by Entrepreneur Development cell” was organized on 4/2/2021 by Mr. Thotapalli Gowtham, Founder, NENTR Pvt Ltd, Vijayawada, for the final year Mechanical engineering students. This lecture really helped the students in various ways. Entrepreneurship Development Cell (EDC) is dedicated to encourage, promote and facilitate Entrepreneurial activities among B.Tech and MBA students. The Entrepreneurship Development Cell at Andhra Loyola Institute of Engineering Technology, Vijayawada targets to help in the development of India's Entrepreneurial ecosystem by enabling easy and efficient interaction between its major components' students, working professionals, aspiring and existing entrepreneurs, mentors, angel investors, venture capital firms and corporates through events like interactive sessions and Conferences.

Moreover, the lecture was interactive. It helped the students to build a positive attitude and motivated them to achieve high success in life. The lecture was an enlightening experience as it helped to rediscover oneself as a human being, as a student, as a fresher who was looking for his/her dream job. The articulation tips provided by the resource person were helpful to improve the personality.

Awareness on Drugs

26-06-2021

The International Day against Drug Abuse and Illicit Trafficking, or World Drug Day, takes place on June 26 each year. Its primary goal is to raise awareness about drug addiction and the issues it can create. This international cause is led by the U.N. in an effort to educate people about drug use and find a solution for this global problem.

Drug addiction treatment is a valuable resource that helps people with substance use disorders make a safe and lifelong recovery. While treatment can help, World Drug Day seeks to prevent and manage drug use before addiction and other problems ever begin.

In the view of this College administration conducted awareness on Drugs to students'. The resource persons I. Hussain, Inspector & Sri M. Sattibabu, Additional of Police, Special Enforcement Bureau, Vijayawada, East station.

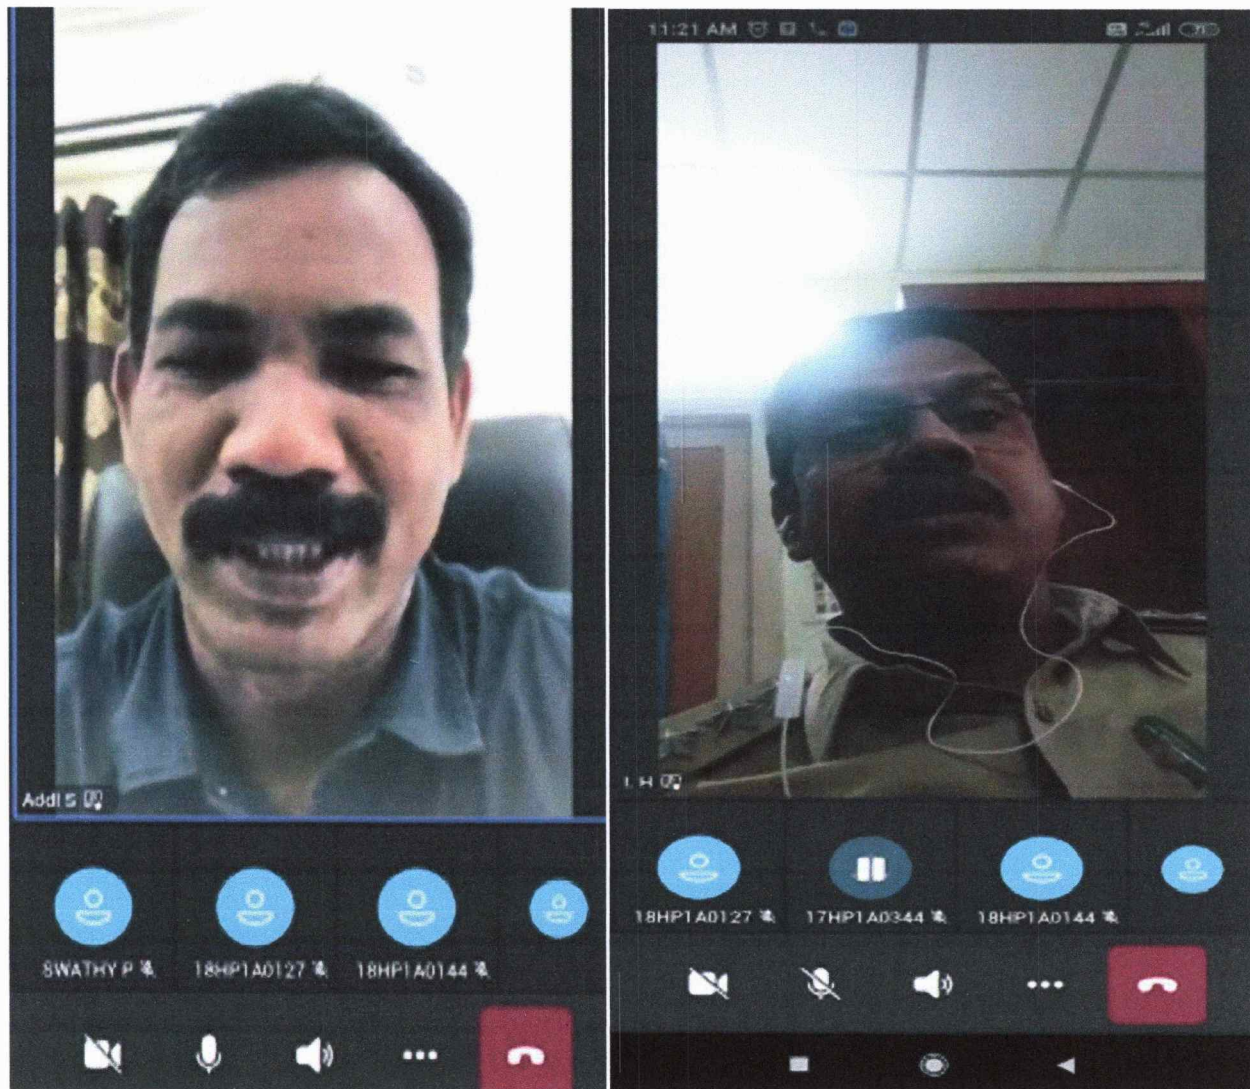

Drug and alcohol abuse are important problems that affect College-age youth at earlier ages than in the past. Young people frequently begin to experiment with alcohol, tobacco, and other drugs by the time students are in high school, rates of substance use are remarkably high. According to national survey data, about one in three twelfth graders reports being in the past thirty days; furthermore, almost half of college students report ever using marijuana and more than one-fourth report using marijuana in the past thirty days. Marijuana is the most commonly used illicit drug among college students.

Traditionally, drug and alcohol abuse education has involved the dissemination

PRINCIPAL

of information on drug abuse and the negative health, social, and legal consequences of abuse. Contemporary approaches include social resistance and competence-enhancement programs, which focus less on didactic instruction and more on interactive-skills training techniques. Contemporary programs are typically categorized into one of three types: (1) *universal* programs focus on the general population, such as all students in a particular school; (2) *selective* programs target high-risk groups, such as poor college achievers; and (3) *indicated* programs are designed for youth already experimenting with drugs or engaging in other high-risk behaviors.

Director Father Dr.A.Francis Xavier S.J, and Principal Dr.O.Mahesh also delivered valuable information to students. The program was coordinated by Dr.V.V.Prabhakar rao and Supported by Dr.M.Geetha Rani & Mr.K.TejaSwarup of Mechanical Engineering Department.

Cloud computing architectures have matured in an extremely short span of time and made readily acceptable to the changing needs of the IT sector. They basically comprise of two parts i.e. the front-end and the back-end. The front end is the end utilized by the user or client e.g. browser or an app created by the company itself; The back-end is managed by the host and typically contains large data storage facilities, virtual machines, security systems and servers.
